PROFILE SUMMARY

Detail-oriented Full-Stack Developer with professional experience in modern frontend development (HTML, CSS, JavaScript, React) and strong backend expertise in Java, Spring Boot, and RESTful APIs gained through specialized training and project engineering. Proven ability to build responsive user interfaces, design custom APIs, and collaborate across teams to deliver high-performance web applications.

EDUCATION

B.Tech in Information Technology, Priyadarshini Bhagawati College of Engineering (6.72) | 2021 – 2025

Higher Secondary Certificate (HSC), Z.P. Junior College of Science (68%) | 2019 – 2021

Secondary School Certificate (SSC), Shree Sai Convent (65%) | 2019

EXPERIENCE

Arrastur Innovations Pvt. Ltd.

Web Developer

July 2025 – May 2026

- Developed responsive web applications and interactive UI components using React, JavaScript (ES6+), HTML5, and CSS3/Bootstrap.
- Optimized site performance, fixed UI layout bugs, and ensured seamless cross-browser compatibility across mobile and desktop views.
- Built reusable frontend components to maintain design consistency and scalability across web applications.

Web Developer Intern

Jan 2025 – Jun 2025

- Assisted in developing responsive web pages and UI components using HTML5, CSS3, and JavaScript.
- Built reusable frontend components and optimized website layouts.
- Resolved frontend UI issues across multiple viewports, improving cross-device usability.

PROJECTS

Live Weather Dashboard (Full-Stack) | Spring Boot, Java, JavaScript

- Engineered a full-stack application integrating the OpenWeatherMap API to provide real-time weather data to users.
- Implemented a custom RESTful API for dynamic city-based queries and designed an interactive frontend using the Fetch API.

Tripzix Frontend Platform | HTML5, CSS3, JavaScript (ES6+), Mobile-First Design

- Engineered a high-performance travel platform interface using a mobile-first strategy to ensure a seamless, responsive experience across all devices.
- Developed modular, reusable CSS components and optimized layouts to maintain design consistency and reduce codebase complexity.
- Implemented dynamic UI elements using JavaScript for smooth, efficient interactions.

Smart Obstacle-Detecting Stick | IoT, Ultrasonic Sensors, Microcontrollers

- Designed an IoT-based assistive device featuring real-time obstacle detection through hardware-software integration.
- Integrated an audio feedback system that reduced collision risks for visually impaired users by providing instant navigation cues.

SKILLS

- Languages: Java, C/C++, HTML, CSS, JavaScript.
- Frameworks & Libraries: Spring Boot, React, Hibernate (ORM).
- Databases & Tools: MySQL, RESTful APIs, Git/GitHub, IoT integration.
- Soft Skills: Problem-Solving, Effective Communication, Time Management.

CERTIFICATIONS

- Java Certification – Aashirwad Coaching Classes
- C/C++ Certification – Aashirwad Coaching Classes
- Claude AI Workshop – Participation Certificate
- Personality Development Workshop
